## Physical activity policy status in Malta

MOVING policy index

This country snapshot presents detailed results of the <u>MOVING policy index</u> [1] for Malta. It highlights strengths and weaknesses in the design of national government physical activity policies. This snapshot supplements the policy index results with an in-depth look at the quality of policy design in each country. Full policy index results are outlined in the MOVING policy brief, which compares Malta to 29 other European countries.

## Main messages

- 1 Malta only implements policy actions in two out of the six policy areas of the MOVING framework, which shows that greater national government policy action is needed. One policy area received a good assessment: initiatives that promote physical activity in schools, community, and recreation (M).
- **2** Weaknesses within policy areas are identified in community initiatives (M) and public awareness campaigns which promote physical activity (N). Gaps are seen throughout all policy areas, but particularly in a lack of physical activity guidelines (N) and physical activity outside of school hours (M).
- 3 No action was taken in a large majority of the MOVING framework, such as physical activity opportunities in the workplace and training (O), structures and surroundings which promote physical activity (V), improve road safety actions (I), and physical activity training within healthcare and outpatient settings (G). Therefore, greater action and strong policy design are needed throughout all policy areas to improve the physical activity policy status in the country.

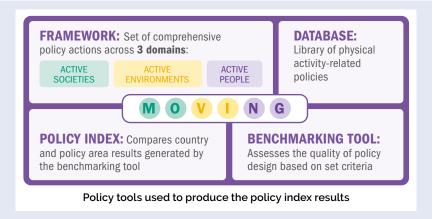

| Overvie  | ew of policy status  | NO POLICIES IDENTIFIED | POOR            | FAIR          | MODERATE     | GOOD                   | EXCELLENT    |

This snapshot is based on national level policies only. Policies issued by provincial, regional or local governments are outside the scope of this project.

## **Methods**

The MOVING policy index methods are fully explained in the associated **policy brief**. In short, the policy index combines values for a) policy presence, and b) policy design for 23 benchmarks.

The benchmarks are applied to policies in the <u>MOVING database</u> [2], collected through a comprehensive scan in 30 European countries, including Malta.

| Breakdown of policy index results | (For full details on the policy design criteria, consult the <b>policy brief</b> ) |  |  |  |
|-----------------------------------|--|--|--|--|
| X No policy identified            | Meets up to 75% of policy design   |  |  |  |
| Meets up to 25% of policy design  | Meets up to 99% of policy design   |  |  |  |
| Meets up to 50% of policy design  | Meets all aspirational standards   |  |  |  |

|     | Physical activity in schools and PE                                   |   |  |
|-----|---|---|--|
|     | Physical activity in and outside of classrooms                        |   |  |
| D/I | Physical activity outside of school hours                             |   |  |
| IVI | Community and mass participation initiatives                          |   |  |
|     | Physical activity for people of all ages and abilities                |   |  |
|     | Financial incentives to promote physical activity                     |   |  |
|     | Training for professions outside of healthcare                        | × |  |
| U   | Physical activity in the workplace                                    | × |  |
|     | Design guidelines and regulations for buildings                       | × |  |
|     | Active design guidelines outside buildings                            | × |  |
| W   | Active design guidelines for open/green spaces                        | × |  |
| V   | Walking and cycling infrastructure                                    | × |  |
|     | Integrated urban design and land-use policies                         | × |  |
|     | Access to quality public open space and green spaces                  | × |  |
|     | Policies to support public transport                                  | × |  |
|     | Road safety actions including safety of pedestrians, cyclists etc     | × |  |
|     | Mass communication campaigns to promote transport                     | × |  |
|     | Policies to promote active transport                                  | × |  |
| N   | Mass media campaigns and social marketing promoting physical activity |   |  |
| IN  | Develop and communicate physical activity guidelines                  | × |  |
|     | Pre- and in-service training within health care                       | × |  |
| G   | Primary care (assessment, counselling and PA prescriptions)           | × |  |
|     | Health care and outpatient settings                                   | × |  |
|     |   |   |  |

Note: The policy landscape in any country evolves over time. These findings reflect our knowledge as of May 2023. To see latest results and for further technical information on the policy indexes, please consult our website: wcrf.org/our-policy-work.
